COUGARTRACKS

SHERWOOD HEIGHTS JUNIOR HIGH SCHOOL - HOME OF COUGAR PRIDE

Math Challenge / Booster 7 and 8

What is an ovoid? It is the mathematical term to describe a three-dimensional oval shape, or an egg. Students in the math option classes had an opportunity to examine ovoids from an Easter perspective. They began by looking at the traditional art form of Ukrainian Easter eggs (pysanky). Students had a chance to learn that the colors and symbols have different meanings but central is the idea of using geometry and symmetry.

They also learned that the world's largest pysanky is located in Vegreville, Alberta and the structure itself is a mathematical and engineering feat. Students then incorporated geometry and symmetry to decorate their own Easter eggs. Check out some of the results above!

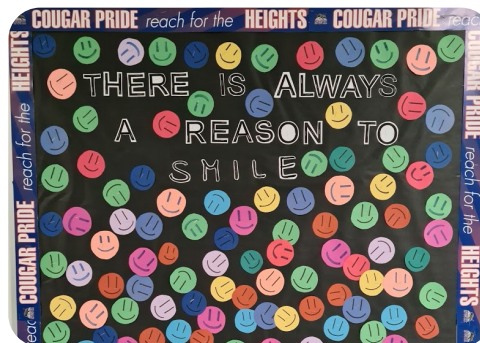

Library Gifted Special Bookcase

At the end of November 2020, we were thrilled to learn that Sofia Rathjen's Community Change grant from Strathcona County was approved! Her hard work paid off, and Sherwood Heights is excited to receive 131 books featuring authors from dozens of cultural backgrounds, writing in a full suite of genres including science fiction, poetry, history, graphic novels, mythology and more.

A special thanks to Peter Moen from Moen Furnishings for donating this beautiful bookshelf, along with a personalized plaque that will be attached to it in honour of Sofia's initiative to celebrate diversity and to remind people to "see with technicolour hearts, instead of colourblind eyes."... Visitors in School

A big thank you to all parents, students, and staff for doing their part to ensure everyone is safe and healthy. Every morning before coming to school all students must complete the daily [COVID-19 Screening Questionnaire](#). Parents are reminded that they need to make an appointment to enter the school, as non-essential visitors and contractors are not permitted in the school or workplace without an appointment. Please call or email the school... ([read more](#))
